# Columbus Day

By Dr. R. Pletsch

Columbus Day is next Monday. As a student, teacher, parent and principal the only thing it meant to me was the fact that it was the first school holiday and this was made even nicer was made even nicer when it was moved to Mondays. This is how many people, even today, look at this holiday.

The first recorded celebration of Columbus Day was in 1866. It was pushed by a large immi-

pushed by a large immigrant population of Italian Catholics. Later FDR proclaimed it a federal holiday in 1934. Since that day many have considered it a color Since that day many have considered it a celebration of the bravery needed by these explorers. You can find some people, of course, that consider that is far from completely accurate. Some celebrate Leif Erickson, but he did not tell anyone outside his tell anyone outside his village that he had found this land. That is where Columbus got his fame. He came back and told everyone he could. Many nations around the world celebrate this day including Argentina, Bahamas, Belize, Columbia, Costa Rica, Italy, Puerto Rico, Uruguay, Spain, Venezuela, and the Virgin Islands. Over time many states, cities and groups began looking disparagingly on such a celebration because this is the event that began to put indige-

nous peoples on a "slippery slope" for some of their demise as peoples.

Columbus is noted for imprisoning many Indians, made them work in mines, and took many back to Europe to sell as slaves. In his defense, he lived by the rule of the flag he sailed for -- Spain. Queen Isabella enforced a Papal Agreement that did not let Christians become slaves. This, of course, only helped a few. This does not change the fact that the Taino people of Hispaniola disappeared in less than 50 years mainly by pandemics. The recent belief of scientists is that most died from dysentery, overwork, and small pox. These same scientists believe the culture clash went both ways as neither of the peoples had the prepared immune system to live in the country. According to Wikipedia, the men from Columbus' first voyage brought syphilis with them to Europe and it triggered a pandemic of 5 million deaths. This does not

someone who ahs died from lung cancer. Wikipedia, which is the modern equivalent of Encyclopedia Britannica, is a great place to study the issues. They are well documented with primary sources and a distinguished bibliography. So if you celebrate on October 9th, whether you celebrate Columbus Day, Day of the Race, Day of the Americas, or Indigenous People Day, do it for a good reason recognizing courage, or remembering the various peoples that no longer exist. Do it by building up your opinion, not tearing down some-one else. Its 525 years since the interaction

## Annual Gala For After School Matters

Nearly 1,000 civic, corporate and community leaders attended the After School Matters Annual Gala on Sept. 18th at the Wintrust Ārena to celebrate a banner year of providing after-school and summer programs for teenagers. #### **Prepaid Tuition** For College

The College Illinois! 529 Prepaid Tuition Program is reminding parents and grandparents about the importance of planning today for the future costs of college, providing strategies to help them limit or even eliminate future student debt.

Graduates of Illinois colleges and universities in 2015 who borrowed to finance their education had an average student loan debt of about \$29,000.

College Illinois! is a tax-advantaged solution that allows parents and grandparents to lock in the cost of college at today's plan rates. That means that no matter how high tuition rates climb by the time their child or grandchild is ready to attend college, tuition and mandatory fees will already be covered for the schools in their plan.

For more information, visit www.collegeillinois.

On Oct. 19th at 10:19 a.m., millions of people in the U.S. and around the globe will practice three simple actions that could save their lives during a major earthquake. The Illinois Emergency Management Agency and municipal and county emergency management agencies are encouraging residents to drop, cover and hold on during The Great ShakeOut earthquake drill.

Some of the most powerful earthquakes to occur in the U.S. happened in the winter of 1811-12 in the New Madrid Seismic Zone, which reaches into south-western Illinois. That series of earthquakes lasted for several months and shaking was felt as far away as the East Coast. A similar earthquake today could cause catastrophic damage in a region that is more developed and populated.

Schools, businesses, government agencies. families and others can register to participate at www.shakeout.org/centralus.
