

## Choosing A School For Grades 1-8

By Dr. R. Pletsch

There was a time that in our area there was no question about the school your children would attend. But in a short survey you can see that certain schools no longer exist. Many of you may be graduates or your kids were at St. Maurice, St. Joseph and St. Anne, SS. Peter and Paul, St. Agnes, Our Lady of Good Counsel, McKinley Park Catholic, Hope Lutheran, Immaculate Conception, St. Andrew Lutheran, St. Pancratius, or Longfellow. There may even be others I cannot recall at this time. There was a loyalty to your community and that often meant your parish.

So how do we pick the school for our children? Some just follow CPS guidelines and follow their boundaries. Be careful, sometimes these boundaries change without warning. I worked at a school that was considered very successful and people would move across the street, only to find out that their children could not attend the school. We were a magnet school and children were in a lottery with racial preferences.

I was a principal at a very successful, but very old building and two much newer schools in the neighborhood were having trouble keeping their students. So boundaries were changed by CPS to keep the new schools open and we soon seized to exist.

A common ploy to attract parents are the "dog and pony shows". Parents love things like plays, recitals and dance groups, but will it help your child and will they ever become part of it?

Certain programs help very few, such as full time foreign language immersion -- remember the more time spent on non-essential classes, means less time spent on the core subjects which will be part of the standardized tests that the children need to do well so they can choose their high school.

Many are enticed by after school programs, but if that teacher is eliminated, it is hard to replace someone with a particular skill. What parents often look for is "how early can I drop them off and how late can I pick them up?" This is important for many because of these days of the "single parent" and "latch key kids". This is often the most important thing out of necessity. This may help the parent, but does that mean the school is the best?

I have heard parents brag about how much homework their child has. Well teachers that are proud of this I ask a simple question: Did you teach this in class? Because homework should only be review of data already presented and taught. If you, as a parent, have decided that you might do better than your local school, don't be embarrassed to look or embarrassed if you decide that the local school is the best for you. Our community is serviced by several charter schools, and Pope John Paul II that you might consider. But it is important that you consider if you can pick up your child quickly in case of illness or injury. As an administrator, I took many students to the hospital because there was no one at home with a car to come to school.

Your goal as a parent is to look at these situations and pick the best for your family. The reality is the teacher in front of your child not the school's reputation is the difference between a great school and an average school. Some of the best teachers I know did not go away to expensive colleges and some of the worst were so bright they could not understand children who do not find things easy. So parents do what you hopefully always do, think of your child not yourself.

## LIHEAP Enrollment At BPNC Office

The Illinois Department of Commerce & Economic Opportunity's Office of Community Assistance announced that the Low Income Home Energy Assistance Program is accepting applications for winter heating assistance for seniors and people with disabilities.

The state and federally funded energy assistance program for low-income families, makes heating bill payments on behalf of households.

Customers must bring documentation when applying for assistance including:

Proof of gross income from all household members for the 30-day income period beginning with the date of the application.

A copy of their current heat and electric bills issued within the last 30 days (if they pay for their energy directly).

A copy of their rental agreement (if they are renting) showing that utilities are included, the monthly rental amount and landlord contact information.

Proof of Social Security numbers for all household members.

Proof that their household received Temporary Assistance for Needy Families; Aid to the Aged, Blind, or Disabled; or other benefits, such as Medical Eligibility or Supplemental Nutrition Assistance Program, if receiving assistance from the Illinois Department of Human Services.

A single-person household can qualify with a monthly income of up to \$1,508; a two-person household up to \$2,030; a family of three can earn up to \$2,553; and a family of four can earn up to \$3,075. Benefits are paid directly to energy vendors on behalf of eligible households. The exception is households whose heating costs are included in their rent. These households must provide proof

that their rent is more than 30% of their income in order to qualify for LIHEAP benefits.

Disconnected households and families with children ages 5 or under (includes all children who are not yet 6 years old) can begin applying for assistance beginning Nov. 1st. Individuals not eligible for priority enrollment can apply beginning Dec. 1st. Applicants will be served on a first-come, first-served basis until May 31st or until funding is exhausted.

Households pay a percentage of their income towards their utility bill, supplemented by a monthly state benefit. Participating households are eligible for a reduction in outstanding bills for every on-time payment they make.
