Technical Education

By Dr. R. Pletsch

President Trump signed the "Strengthening Career and Technical Education For The 21st Century Act" on July 31st. According to Education Week, this legislation makes significant changes to federal law.

The new law allows states to set their own goals for Career and Technical Education programs. This can help

with filling jobs available in the state and eliminates a level of bureau-

cracy that followed the last such bill in 2006.

President Reagan was quoted as saying "there's

of the aisle.

Like all bills some oppose it, but very few.
States like Tennessee are already planning on

He was gainfully employed, but was it worth the \$. This is our world - Prepare your kids. Call your legislator about your concern -some even listen.
