## ArtificialIntelligence

By Dr. R. Pletsch

A subject we are hearing a lot about is Artificial Intelligence, AI. The people reading this article have a wide range of ideas about the concept. If you are in 6th grade, you probably have an idea what AI is. Most younger people probably have little idea. Most adults run the gamut, some have no real idea, others could teach the class. For our simple article, I will simply say it is the use of technology without giving a machine all the answers. The machine is expected to make the correct decision.

In the world we live in presently, the internet lists the following companies that are using AI quite successfully. They are Siri, Alexa, Tesla, Amazon, Netflix, and Pandora. You may or may not be aware of these companies. If you are interested, you can look them up on your computer. One of the more interesting worries is that as motor vehicles become less reliant on drivers the vehicle can help with more crimes, including robberies and, yes, even murders. These unmanned cars can intentionally run over victims. But what this author tries to bring up is our children and the efforts you may or may not be aware of about articles that con-

cern most of us.

I recently read an article describing a survey conducted by UCLA listing what people consider their biggest concerns about AI. Most seem to be related to crime. They fear losing control of their information at work and at home, especially concerning personal and financial matters. The fear is they can copy any-thing. This could lead to all types of false identification including pass-ports, driver's licenses, and almost anything else you can think of. There is fear that this could help setting up blackmail or fake news.

It has become public knowledge that people have been using AI to make up phony videos and pictures showing crimes with different victims or different criminals. These are getting better and better and harder to detect. I have been told and trust that in the near future with no photos, videos or audio tapes may be considered as evidence, because they will be so easy to dupli-cate and change that it will be hard for lawyers to be conclusive.

In the ideas of AI proponents it will be a great help to medicine and maybe even prevent war because it may cause AI military equipment to malfunction. It is noted that once AI is very advanced, these devices will "think for themselves" and will not need a command and may a command and may become self-reliant. Some may think"great", others will fear the day. Don't let your children become victims. Help them as much as you can.

## Grand Opening Celebration

The Chicago Park District will conduct a grand opening celebration for its new Brighton Park Community Campus, 4830 S. Western ave. on Saturday, June 24th from 11 a.m. to 2 p.m. Martha Montes, supervisor of Park 596 invites the public to visit the 17 acre site that features a new 58,100-square-foot two-story facility. The multi-purpose, circular building is both the Chicago Park District headquarters and a fieldhouse equipped with all types of amenities and energy efficiencies.

The public fieldhouse boasts a 20,000-square-foot footprint equipped with a gymnasium, fitness center, bathrooms, locker rooms, teen center, community multi-purpose rooms, and a terrace that doubles as an event space. Once a vacant, unkept property, the new park is a welcoming outdoor green space with two artificial turf athletic fields with lighting and a scoreboard ready for soccer, football, and lacrosse games, and a grand lawn where patrons will enjoy concerts, movies, and performances. While kids amuse themselves in the playground, spray pool, and nature play space, seniors will have access to the fitness center and walkways.

From the reclaimed Chicago common brick to the natural habitats for birds and pollinators, this new park and facility were designed to have minimal impact on the environment. Native trees, flowers, and grasses will fill the natural area and create an urban oasis while absorbing stormwater, and reducing urban heat island effects. The park welcomes children, ages 6 to 12, to its inaugural six-week Summer Day Camp, June 26th -August 4th from 10 a.m. to 4 p.m. Early Bird Camp, 8:30 a.m. to 10 a.m. and Extended Camp, 4 p.m. to 5:30 p.m. will also be available. In late August, the park will offer Play Camp and a Girl's Basketball Camp.

Teens, ages 13 to 15, will have the opportunity to apply to be a volunteer Junior Counselor and assist with day camp activities. This program is an enriching career development opportunity that allows youth to become Recreation Leaders when they are eligible at age 16. For more information, call (312) 742-7529 or visit chicagoparkdistrict.com.

#### Mahalia Jackson Court 2 Courtesy of Greater Chatham Initiative.

The Mellon Foundation announced a grant of \$6.8 million to The City of Chicago Department of Cultural Affairs and Special Events to support the Chicago Monuments Project and citywide community-generated com-memorative initiatives and installations. Funding will allow for the implementation of new Chicago monuments, including the Chicago Torture Justice Memorial. These projects will add to the collection and memorialize events, people, and groups that historically have been excluded or underrepresented. Additional funding from Mellon will support ongo-ing programs that facilithe continued engagement of artists and communities around monuments, public art, and cultural history.

Launched in 2020, the Mellon Monuments Project is a five-year, \$250 million commitment to reimagine and rebuild commemorative spaces and transform the way history is told in the United States.

The Chicago Monuments Project was created as a response to the need for a larger reckoning with monuments that

## 2-year old Giraffe At Brookfield Zoo

Photo credit: Jim Schulz/CZS-Brookfield Zoo

One of Brookfield Zoo's newest residents is already 10 feet tall and still growing. Asha, a 2year-old female reticulated giraffe arrived recently and can now been seen in the outdoor area at Habitat Africa! The Savannah.

Since her arrival on May 6th, she has been behind the scenes acclimating to the animal care staff and being introduced to the other giraffes— Potoka, 9; Ato, 7; Jasiri, 17; and Arnieta, 16. Staff describe Asha as a confident and curious giraffe, who will be a great addition to the herd. Her coat is lightly colored and she has a delicate and expressive face.

The transfer of Asha to Brookfield Zoo from another accredited North American zoo was based on a recommendation from the Association of Zoos and Aquariums' Giraffe Species Survival Plan. Each plan manages the breeding of a species to maintain a healthy and self-sustaining population, which is both genetically diverse and demographically stable. It was determined that Asha is a good genetic match with Ato, the Zoo's breeding male. She will be paired with him once

she reaches sexual maturity.
In 2018, the species was listed as endangered. Found across northern and north-eastern Kenya and small populations in southern Ethiopia and along the south-eastern border of Somalia, only about 16,000 individuals remain in their native habitat. Causes for the decline of reticulated giraffes include habitat loss and fragmentation, increased poaching, and political unrest.

The Chicago Architecture Center, 111 E. Wacker drive will conduct a virtual zoom event, River Cruise Stories" on Wednesday, June 28th at noon. The cost is \$15. Register at architecture. org.

This illustrated talk features deleted scenes from the River Cruise Aboard Chicago's First Lady. Presenter Susan Frost has been giving architecture tours in the Chicago area for 25 years and a CAC docent since 2015. She has a BA in Art History and an abiding love of historic preserva-tion and the history of Chicago.

Fourth of July Walking Tours will visit Motor Row, Pub Tour: The Loop first skyscrapers, elevated architecture and Vietnam Memorial and Riverwalk.

Architect educator and author Tom Leslie will discuss his new book ChicagoSkyscrapers, 1934-1986 on Tuesday, July 11th at 6 p.m.

Chicago has always been a brewing and beer-drinking city. Virtually explore brewery architecture: industrial breweries, palantial homes of beer barons and neighborhood pubs on Wednesday, July 26th at 12 p.m. Join us at the Art In-

stitute of Chicago for a conversation with Carol Ross Barney, Chicago architect and 2023 AIA Gold Medal recipient on Thursday, Aug. 17th at 6 p.m.

Volunteer at Open House Chicago on Oct. 14th - 15th and get the insider experience at this unique event. Volunteers get exclusive benefits like a Priority Access pass, letting you skip the line at busy sites, as well as free walking tour passes, and a limited edition t-shirt. Volunteers pick their sites and shift times. Many Chicago neighborhoods will be highlighted.

CAC summer camp registration is now open. Campers design habitats and engage in projects.

For information and registration, visit architecture.org.

## Albert D. Silinski

6/25/63 - 8/30/87

As you did not choose to leave us, we also did not choose to let you go. We still struggle with that

parting, wanting to change it - to call back what we once had - and knowing we can't. So now we live with our memories. Memories of a loving, kind and considerate person. One who celebrated and enjoyed life. Not a saint, but a vulnerable and courageous human being with quite a sense of humor.

Your loving family
