Teachers and the war

By Dr. R. Pletsch

I have been reading articles that pertain to the current war in the Middle East. I have been looking for articles about how different School Boards are handling the issue of teachers and what is talked about in their classrooms. There is no doubt that the students' interests go the full range of emotions and opinions. Many understand that the First Amendment can be limited. This is the case of classroom teachers when the subject is controversial or inflammatory.
There is also the question of the curriculum if your School Board does not list the Middle East or current events. You could get fired in many states for

not following their laws. Has non-retention of faculty happened? I have not found this in the read-

Heat Watch 2023 Findings

The Chicago Department of Public Health, the Department of Environment, and Northwestern University Buffett Institute Defusing Disasters Working Group released findings from the Heat Watch 2023 Activation Day.

Chicago joined 16 other communities across the United States as part of the National Oceanic and Atmospheric Administration Heat Watch campaign throughout the summer. On July 28th, more than 550 Chicagons signed up to yolcagoans signed up to volunteer, with nearly 100 chosen to support 5 community hubs or travel as resident scientists driving three shifts across 29 routes covering all 77 community areas, equipped with specially designed heat sensors from NOAA and CAPA Strategies that recorded temperature, humidity,

time, and location. Factors like humidity, tree coverage, air flow, heavy traffic, roads, industrial areas, parking lots, and the density of buildings and concrete all contribute to how intense the heat feels, creating what is known as an urban heat island effect. The final report ultimately used nearly 140,000 data points, with the highest temperature recorded as 99.1° and the greatest temperature difference of 22°

They understand the great influence many teachers have over their students. Many officials have advised teachers that if the subject is too volatile, to try to avoid it and explain all sides the best you can. There is no doubt that this war is racial. Chicago Updates On New Arrivals

The Johnson Administration has transitioned 4,000 asylumseekers from emergency staging areas into temporary shelters in recent weeks. As of Dec. 14th, all 22 police stations have been decompressed and retired as emergency

staging areas.

The City has welcomed nearly 26,000 asylum seekers since August of 2022. Nearly 14,000 asylum seekers have been placed in 27 temporary City shelters.

The Chicago City Council implemented a bus safety ordinance on Nov. 18th to ensure the orderly and safe intake of new arrivals. The ordinance was amended on Dec. 13th, enacting additional penalties, including the impoundment and towing of buses that refuse to comply with safety protocols. Bus companies must unload at designated landing zone and must fill out the requisite paperwork.

The City has resettled

or reunited over 10,000 asylum seekers while providing shelter, food and wraparound services for more than 15,000 others.

CPS Develops Five-Year Plan

The Chicago Board of Education adopted a resolution that aims to guide engagement and development of the District's next five-year strategic plan. The resolution outlines parameters that emphasize strengthening all neighborhood schools as a step toward supporting students and closing opportunity gaps. Work on the District's next plan has begun and will continue this spring with community engagement and outreach, beginning with the Shape Our Future Survey as well as current engagement sessions about the master

plan.
The resolution is not a vote to close selective enrollment, magnet or charter schools. The Board has committed to working in partnership with CPS communities to ensure the new plan helps develop high-quality Pre K-12 pathways neighborhood schools.

At this stage of the unwinding process, Illinois and Maine have the highest renewal rates among all states, at 90%.

To provide the public with latest statewide data, the Illinois Department of Healthcare and Family Services launched an online dashboard with Medicaid renewal data.

The redetermination dashboard will be updated regularly as new data becomes available, providing the public with a breakdown of redetermination status by renewal month, customer demographic, language

and geographic data. Prior to redeterminations resuming earlier this year, customers had not been asked to renew their Medicaid coverage since March 2020. After the federal government declared an end to the public health emergency and continuous Medicaid enrollment requirement this year, states were given several options of when to resume annual
