### Congressman Tours Midway Airport

Rep. Dan Lipinski (left) visited Midway Airport to meet with pilots from Southwest Airlines.

Congressman Dan Lipinski (IL-3), the state's senior member on the House Transportation & Infrastructure Committee, sent a letter to the Federal Aviation Adminstration urging a stop to any plans for an over-night closure of the air traffic control tower at Midway Airport.

Lipinski, who sits on the Aviation Subcommittee, met with representatives and pilots from Southwest Airlines, as well as air traffic controllers, to learn more about the negative impact an overnight closure would have on the airport and the nation's aviation system overall.

"As one of America's top 25 busiest airports, Midway is vital to the eco-nomic success of the neighborhood and Chi-

cago area. Passenger traffic at Midway is at an alltime high, a remarkable accomplishment for an airport once on the verge of closing. It makes no sense that the FAA would consider an overnight closure of the tower. There seems to be little, if any

cost savings from such a

move.

Each year, Midway serves almost 20 million passengers and more than 250,000 aircraft operations, ranging from smaller general aviation airplanes to commercial airlines carrying up to 175 people. According to the city's Department of Aviation, the proposed closure of the control tower will result in 31 square miles of uncontrolled airspace each

night in a densely populated area that includes

downtown Chicago.

"This is one more reason why the sequester is a terrible way to go about addressing the country's budget problems," Lipinski said. "The sequester's indiscriminate cuts and failure to make a distinction between worthwhile and wasteful programs is irresponsible."
